Project

Student Management Portal

- This is a website build by **.**NET framework.
- As backend language we use Visual Basic and for database we use Microsoft SQL Server.
- This is team project for our last semester we work for manage our students record for our department.
- Visit - Student Management Portal

Unit Converter

- It is a desktop application made by using Python Language and Its TkInter package.
- We can convert multiple units like mile to km centigrade to Fahrenheit etc.
